

Hey, there ever wonder why Facebook marketing has got so much bus or why businesses allocate huge budgets on Facebook advertising, yearly stick around and I'll show you why Brands like Samsung Amazon.

And even Microsoft's spend millions of dollars on Facebook advertising every single year.

I guess what these budgets are constantly on the right? Not to shock you, but even Google advertises on Facebook.

Guess what these big Brands can't be all wrong as they will only keep investing in Facebook marketing, if the returns are good and guess what? They are check this out.

Facebook has / 232.

billion, monthly active, users with about 17.

billion of them.

Logging on every single day.

210 million Facebook users are from the US 26% of Facebook users who played on ads, reportedly made a purchase a whopping, 93% of social media, advertisers are using Facebook ads, 79, 10% of online, adults, use.

Facebook, 422%.

of people like or follow a business page, so they can get exclusive offers 57% of consumers, say that social media influencers, they're shopping with all these stats.

It becomes so glaring.

Why Facebook marketing is the deal.

All your customers and future customers are already on Facebook and at such Facebook advertising can help you increase your business reach and time and increase your profit massively and guess what.

Despite all this Facebook is getting more and more influential and relevant with each passing day with a flexible and directed targeting option.

You can charge it, your would-be customers, however, you want, whether based on age, gender income, interest location or whatever, this makes your Facebook ads convert really well with the Facebook and look alike targeting feature, you.

can reach people similar to those who have converted on your adverts before serve adverb.

Targeting everyone who has visited your website, you see, my friend, Facebook advertising gives you so much flexibility.

Just enough to make a killing.

That's not all, despite the flexibility with Facebook advertising.

You can set up at campaigns with as low as a \$5 budget.

This makes it open to even small businesses.

Using such a massive inflexible system can't be anywhere near easy.

You know, the learning curve is just too wide.

As learning will require so much time and energy, a huge budget, testing optimizing, and retesting, and that so many people can scale such a cur, even freelance, Facebook ads.
